### **Succession of management at DTC AG regulated**

Marcel Strub was elected by the Board of Directors of DTC AG from a large field of applicants as future Managing Director and successor for Bernhard Gerster, who is retiring. Marcel Strub has been working at the DTC for more than 20 years and has held the position of active safety division manager since September 1, 2012. He will take over the position as Managing Director as of August 1, 2020. The election of Marcel Strub, who holds a degree in automotive engineering and a business management degree, will ensure continuity within the company. He has the necessary skills to successfully lead DTC AG into the future in a changing environment. For customers and partners, DTC AG will continue to be the competent partner for mobility security.
